Role of ICC in BINGO and Private Sector Priorities

- Representing around **45 million businesses** in over **170 countries**, ICC has been the **official UNFCCC Business and Industry Constituency Focal Point** since the early nineties.
- We played a key role in mobilising the private sector for the successful adoption of the Paris Agreement and have since then **promoted climate action** across our global network and **provided business insights and expertise** for a successful implementation.

Global business priorities for COP29

1. An ambitious, realistic, comprehensive and fair **New Collective Quantified Goal (NCQG)** for climate finance – encompassing appropriate measures to address barriers to accelerate the supply of finance from private sources.
2. An agreement on the full operationalisation of **Article 6 of the Paris Agreement** on international emissions trading – in particular, provisions to facilitate functioning, high-integrity cross-border carbon markets.
3. The delivery of ambitious, actionable and **1.5°C-aligned Nationally Determined Contributions (NDCs)** – informed by the first GST outcome and backed by clear policy plans capable of sending sound investment signals to the industry.
